This letter to recommend **Mr.Raunaq Singh** for the position of **Business Development** (Fund Raising & Strategy Development) at your company .Raunaq worked for Business Development (Fund Raising and Strategy Development) of the organization, and he was routinely throughout that time the most creative and capable candidate we had. He had a fantastic eye for unique skills and was able to implement some of the best convincing strategies.

Raunaq had done the fundraising of SHIKSHA project during his internship tenure. He played a significant role, often, in developing and implementing overall strategies, and dealt with the details along with the bigger picture. He has great convincing power.

A huge part of Raunaq`s job with us was coordinating inter departmentally to facilitate the completion of task. He was always thoughtful and considerate, an excellent team player who can also work independently and do a fantastic job. Raunaq can seemingly do anything, so he`s very highly recommended.

With regards,

Mrs. Manisha Barapatre
